

College Partner Program

Updated July 2020

PARTNERSHIP BENEFITS

- ★ We provide a developmental assessment that can help your students gain valuable self-awareness about the types of company cultures they're naturally suited for.
- ★ We provide students with personalized reports that detail their workplace culture preferences and values profile, offer commentary about the types of organizations they should seek out for employment, and suggest interview questions they can ask potential employers to gain insight into whether the culture FITs with their values.
- ★ We provide college representatives (faculty, career development professionals, etc.) with material that can help them facilitate discussion and actionable steps to help their students find organizations they FIT with.
- ★ We can provide college reps with data outlining their student population's collective values profile. We can separate this data by department, major, classification, etc.

HOW IT WORKS

Colleges have a custom URL for students to log in and take the assessment. The assessment takes about 10 minutes. Students will be presented with values statements, and they will rank the statements from most important to them to least important to them. Each student then gets a customized MatchFIT Values Profile.

INVESTMENT

MatchFIT College is priced per assessment and tiered by annual volume as shown below.

Annual Assessments	Unit Cost
Up to 100	\$9.25
101 to 500	\$8.50
501 to 1,000	\$7.75
1,001 to 3,000	\$6.75
3,000 +	\$5.50
Assessment and dashboard can be customized for additional cost	

Assessments can be ordered in small batches -or- with an annual plan. *Annual plans are discounted 10%.*
