

What is MatchFIT?

MatchFIT helps you identify and understand your work style and workplace culture preferences, so that you can communicate more effectively with employers about what you're looking for in a company. MatchFIT works to match students to potential employers they FIT with, based on student and employer workplace values.

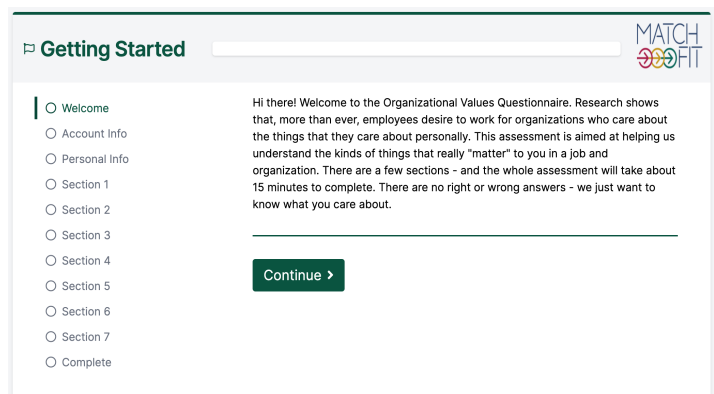

Your Student Access

Your college will have a custom URL for students to log in and take the assessment. You will be presented with sets of values statements, and you will rank the statements from *most important to me* to *least important to me*.

Watch a [30-second video](#) example

You will get a customized report outlining your *MatchFIT Values Profile* and how to use your results to drive conversations with employers.

The assessment takes an average of 10 minutes to complete.
